

# CCTV Report for January 2014

Sometimes the personal touch works best. On the 12th, in Redhill, the Police received a report that a male had stolen a phone from a person and they had run off in the direction of Ladbroke Road. Our operator thought the description matched that of a person they were watching earlier and continued to sweep the Town for them. Our operator found the male in Redhill Bus Station and informed a uniformed Police officer who was in the CCTV room. The officer responded and we tried to inform the Force Control room of the location of the male. We were instructed to wait but thankfully the offender remained in the Bus Station until the Police officer arrived and arrested him. We had still not been able to pass the sighting of the offender to the Force Control room.

Sometimes it is the time we save that is just as important as the time we spend. On the 14th a distraught family member reported the loss of a two year old child from a shop in the middle of Redhill. Whilst many Police officers went to the Town and we scoured the area the child was located by a member of the public near the area of McDonalds. This information was notified to the Police and the child and family were quickly reunited. So far, so good. However, after a period of some time, the family decided that the child could not, nor would have, walked off of their own accord and they must have been subject of an attempted abduction. When we became aware of the allegation we quickly reviewed the recordings and we were able to find the child walking out of the shop and off down the road all on their own with no possibility of any kind of abduction being attempted. The family immediately accepted this but had CCTV not captured this event it could have led to an intensive, protracted investigation by the Police with perhaps a nervousness in the community.

In a very similar vein, but later in the month, the Police received a visitor at the Police Station alleging that they had been assaulted earlier in Redhill Town centre. Whilst officers sat with the male and listened to his story we were asked to check the footage to see if we had seen the male in the Town earlier. Not only had we seen the male, but as he was particularly well known to us, the operator was actually following him when he alleged that the assault had taken place. It had not taken place! An excellent saving of Police time on the investigation and an investment in community safety as the press did not have an assault story to publish.

Final story this month was the conclusion of a major drug supply investigation, mainly centred on East Surrey but with tentacles spread further. We have been monitoring suspected class A drug dealers for many months, on many occasions assisting the Police undercover operation. This culminated towards the end of January with the Police executing 30 warrants, arresting over 20 persons and charging them with well over 100 offences of possession of class A drugs with intent to supply. All of our CCTV staff have made an excellent contribution to this investigation and should be very proud of their assistance.

## **Note:**

"Statistical Info" gives an overview of statistics for last three months plus a cumulative annual total. "Allocation of Time" shows the breakdown of time spent by CCTV staff. Within this, the item marked 'copy and seize media' indicates the length of time preparing evidence for prosecution cases. The item marked 'crime investigation' indicates the time spent reviewing incidents thereby saving Police resource time. The item marked 'monitor incidents and events' indicates the actual time spent when a 'real time' incident has been reported to the Police or CCTV. Year is defined as April to March.
