

CCTV Report for November 2013

The month got off to a good start with a report of people stealing scrap metal from an address in Dorking. The offenders had their vehicle blocked in and details of this were given to the Police. Although this was nowhere near our CCTV cameras we kept observation on a possible route that the persons may use if they did get to drive off. Sure enough, before the Police arrived, we saw the vehicle enter Dorking and drive in to a cul-de-sac as if to avoid any possible searching activity. We directed the first responding Police unit to the vehicle and they stopped the persons involved before anyone else even knew the vehicle and offenders had left the scene. Unfortunately for us the loser did not wish to pursue an allegation of theft so we were not able to claim these as arrests but we were left with a warm feeling of a job well done.

Further good work in Dorking was when our operator saw a group of suspicious youths who appeared to be quite rowdy in the area of the White Horse in the High Street. We asked officers to attend and as they arrived one of the group hid in some nearby bushes. The officers had not seen the person hide and although they were standing right alongside him they were not aware of his presence. We phoned the officers and directed them into the exact bush where the male was hiding. This transpired to be an excellent job as the male concerned was on bail not to associate with another person in that group and they therefore got themselves arrested with a trip back to Court the very next day.

Another good result, but this time from Horley. The Police were informed of a very aggressive male at Horley Rail Station. This was followed quite closely by a report of a missing person with the description that matched that of the aggressive male. We located the male sitting on Waitrose Car Park wall and noted that the male had a chain in his possession. We updated the attending officers with this apparent risk. As officers arrived the male ran off and although we were able to direct the officers to the male, who they arrested for affray, he was no longer in possession of the chain. A search failed to find the chain but our recorded evidence was sufficient to add weight to the case to enable the Police to charge the male.

The last entry illustrates our professional commitment. A PCSO advised us of two suspicious persons in Redhill that he was intending to stop following a possible theft in the Town. On being stopped the male and female began to remonstrate with the PCSO and we called for assistance on their behalf. Whilst the PCSO was having to devote their time to the male who was being particularly volatile our operator saw the female taking several tablets causing us concern for her welfare. We updated the attending officers with all the facts which led to the female being taken to hospital, having overdosed on this medication, before being taken to the Police custody suite. A potentially very serious incident averted by the astute observations and communication by our staff.

Note:

"Statistical Info" gives an overview of statistics for last three months plus a cumulative annual total. "Allocation of Time" shows the breakdown of time spent by CCTV staff. Within this tab the item marked 'copy and seize media' indicates the length of time preparing evidence for prosecution cases. The item marked 'crime investigation' indicates the time spent reviewing incidents thereby saving Police resource time. The item marked 'monitor incidents and events' indicates the actual time spent when a 'real time' incident has been reported to the Police or CCTV. Year is defined as April to March.
