

HAPPY NEW YEAR!

This is the January issue of the HEA News; each issue will be published on the last Friday of each month.

During the winter months we are constantly monitoring the weather forecast and will make sure that the estate's roads are gritted if we think there is a risk of slippery conditions.

The biggest issue right now is that the Council want to save money and are seriously considering ceasing monitoring and maintaining the outdated CCTV cameras on the estate. Originally HEA part funded these cameras; we want to continue coverage as a deterrent and to gather images of undesirable events. Up until now the cameras have been effective deterrents - have you ever considered why there is not more fly tipping?

For our "Business in the Spotlight" feature this month, we say hello to the newest company on the Holmethorpe Industrial Estate, DPR Motorsport. A leading race team in the extremely competitive world of Caterham racing, DPR Motorsport is giving away two tickets to Brands Hatch for this month's raffle — what a great way to start 2016! To enter this raffle all you have to do is send an email to info@risbridger.com saying "Welcome to Holmethorpe!". The closing date is 09:00 on Friday 5th February with the draw being made the same day. Good luck!

Would you like your company featured in a future issue of HEA News? If so, please send an email to info@holmethorpe.com.

In this month's issue we will be taking a look at DPR Motorsport, HEA Member and the latest company to join the Holmethorpe Industrial Estate.

"DPR Motorsport is a leading race team in the extremely competitive world of Caterham racing. Our 100% focus on Caterham cars ensures we can provide unrivalled technical and engineering expertise to all Caterham owners whether for road, track or race."

DPR Motorsport offers a full range of services to help customers derive the most from their Caterham ownership. They can perform servicing, repairs, car setups and new race car builds together with providing full support for Caterham racing for both car and driver.

Based at 31 Trowers Way, the site is well situated for customers in London and adjoining areas as well as being close to Brands Hatch.

The new 6,000-square-foot workshop is a specialist service centre for Caterham sports cars which enables DPR Motorsport to provide the same quality service for Caterham road cars to complement the at circuit services provided to track and race customers.

With the workshop now operational, work on the customer reception should be completed by the end of January 2016.

Derrick Rowe, the senior partner of DPR Motorsport, would like to thank Yess Electrical, Screwfix, Benchmarx Kitchens and HSS Hire for the much appreciated help. Derrick would also like to thank Jonathan Packer Bespoke Kitchens and Bathrooms, who are currently doing the office fit out.

For the chance to win two tickets to Brands Hatch sponsored by DPR Motorsport, all you have to do is send an email to info@risbridger.com saying "Welcome to Holmethorpe!". The closing date is 09:00 on Friday 5th February, with the draw being made shortly after. Good luck!

CCTV ON THE ESTATE

CCTV cameras on the estate and cabling back to the Monitoring Station were substantially funded 15 years ago by the Holmethorpe Estate Association together with the Council.

CCTV is a deterrent – and something all businesses should be keen to keep - and improve!

CCTV can provide useful information to the police and individual companies.

WHY ARE WE CONCERNED

The cameras are old technology and do not always produce useable data.

The Council is already reducing their funding and we have lost one camera due to the building of new units off Trowers Way.

We are working with Reigate and Banstead Borough Council and Surrey Police to plan improvements to camera coverage, quality and monitoring.

WHAT ARE WE DOING NOW

Planning what CCTV systems we could install as an alternative to keep our businesses safe and secure.

We are asking ALL Holmethorpe businesses to get involved and join HEA!

All Holmethorpe businesses already benefit from the work we do – so why not help us improve our services and create a bigger, better network.

HEA Committee is working hard to help our business community stay united and help each other.

Once we have systems to recommend we will stage an event to present our proposals to you all.

Every business on the estate benefits from the (voluntary) work the committee do – if you are not already a member, please join us and help us keep this estate one of the safest and most secure around.

**Details on how to join HEA can be found at the following address:

WHAT CAN HEA DO FOR YOU?

We are keen to make the association attractive to all Holmethorpe Industrial Estate based businesses. If you have any ideas of how HEA Committee can benefit the membership or the estate as a whole please let the committee know.

WHAT THE HEA DOES...

A reminder about what HEA already does for businesses on the Holmethorpe Industrial Estate:

- CCTV liaison
- Landscaping and maintenance (particularly tree work to keep camera sight lines clear and weed control)
- Signage
- Road gritting and clearance in icy or snowy weather
- Manage the Trowers Way car park
- Planning issues that effect the Holmethorpe Estate
